FLORIA LEGER | UX/UI Designer

Website, Portfolio, LinkedIn

floria.leger@ensc.fr
Bordeaux, France

Final-year Master's student at the École Nationale Supérieure de Cognitique (ENSC), specializing in UX/UI Design, Cognitive and Computer Sciences. Seeking a 5–6 month international UX/UI internship starting in February to leverage strong skills in prototyping, accessibility, and user-centered design for impactful projects.

SKILLS

Software: *Figma, Procreate, After Effects, Premiere Rush, Rive, HTML, CSS, Javascript, React, Node.js, C#*

Research: *User Interviews, UX Research, Data Analysis, Heuristic Analysis, Usability Testing, Information Architecture, Competitor Analysis*

Design: *Design Thinking, Interaction Design, Human Centered Design, Responsive Design, Wireframing, High-Fidelity Mockups, Prototyping, Design Systems*

Visual Design: *UI Design, Accessibility Design, Web Design, Mobile Design, Branding, Guidelines, Gamification, Poster, Flyer, Illustration, Logo, Iconography*

Soft skills: *Creativity, Teamwork, Autonomy, Adaptability, Empathy, Organization and prioritization, Attention to detail, Problem solving, Collaboration and Communication, Pedagogy, Time management, Curiosity, Open-mindedness, Provide and Solicit feedback, Agile*

Languages: *French (Native), English (C1 Reading, B2 Listening)*

WORK EXPERIENCE

UX Designer at a startup, **Purely** — **Remote | April 2025 - Present**

- Co-lead creative direction by applying user-centered design, UX research, and competitive analysis to guide product strategy.
- Analyzed and translated data from a comprehensive survey of over 300 users to refine user personas and inform key product development priorities.
- Manage end-to-end user testing cycles, from design and execution to analysis, to continuously optimize the product experience.
- Architect a scalable mobile UI in Figma with a robust component system to accelerate future design sprints and reinforce brand consistency.

UX Designer Internship, **Airbus & IMS** — **Bordeaux | May 2025 - July 2025**

- Overhauled a critical user workflow using a corrective design methodology to resolve key usability pain points and simplify the user journey.
- Designed and administered user testing protocols to identify and address barriers to usage for a more seamless product interaction.
- Conducted in-depth thematic analysis of user data, applying Colombo & Pasch's heuristics for a precise interpretation of UX issues.
- Defined strategic recommendations for intuitive interfaces in Figma, significantly improving the quality of the learning experience.
- Aligned divergent expectations between two major stakeholders through transparent communication, earning praise and sign-off on the final deliverable.

UX Instructor Internship, **ENSC** — **Bordeaux | June 2024**

- Developed and led interactive workshops introducing high school students to UX/UI design, wireframing, and prototyping using Figma.
- Taught accessibility principles and human-centered design techniques to foster an inclusive design mindset in young learners.
- Balanced technical content with hands-on activities to enhance participant engagement and improve learning outcomes.
- Simplified complex design concepts into beginner-friendly lessons, improving communication and teaching skills.

EDUCATION

Master's Degree in Cognitive and Computer Sciences, **École Nationale Supérieure de Cognitique** — **Bordeaux | 2023 – Present**

French Engineering school focused on UX/UI design, Computer Science, AI and human-centered design.

Relevant Courses: User-Centered Design, User Experience Research Methods, Design Thinking, Accessibility Design, Human-System Interfaces, Mobile Development, Advanced Programming, User Needs Analysis Methods, Innovation Methods, Human Factors and Engineering, Cognitive Engineering, Human-Robot Interaction, AI Core & NLP

Preparatory Classes in Maths and Physics, **Cycle Préparatoire de Bordeaux (CPBx)** — **Bordeaux | 2021 - 2023**

Two-year intensive program preparing for entry into French engineering schools.

ACADEMIC & PERSONAL PROJECTS

UX Designer - Smart desk application, **ENSC** — **January 2025 - February 2025**

- Translated complex user requirements into a high-fidelity interactive prototype in Figma, ensuring the final design addressed core user needs.
- Collaborated with the project team to establish design consistency by integrating modern UI/UX trends for smart office applications.

UX Designer - Web platform for supporting youth, **ENSC** — **September 2024 – December 2024**

- Led foundational user research through semi-structured interviews with experts to inform the core platform features and user personas.
- Established a cohesive visual identity and style guide to communicate project values and ensure consistency for future development.
- Created responsive wireframes and high-fidelity mockups in Figma to ensure usability and accessibility for teenage users.

Brand Designer - Logos Creation, **Le BINKS - Bordeaux INP** — **November 2024 – February 2025**

- Created custom logos with Procreate and Figma for the eight schools participating in the Krystal university sports tournament.

UX Designer - Mobile application, **ENSC** — **February 2024**

- Managed the full design lifecycle for a coffee sales mobile app, from initial concept to a high-fidelity, interactive prototype in Figma.
- Implemented iterative feedback loops throughout the process to align the design with user and project goals.
