Floria Léger

Cognitive UX Designer | floria.leger@gmail.com Website | Portfolio | LinkedIn Bordeaux, France

Cognitive UX Designer and recent graduate of ENSC, an engineering school specializing in cognitive science, with a focus on the intersection of human psychology and interface design. I simplify complex systems through user research, cognitive load optimization, and human-centered design. Experienced in building scalable design systems and applying user-centered methodologies to create intuitive and effective digital experiences. Currently seeking my first full-time opportunity in UX, cognitive design, or human-centered product design.

SKILLS

UX & Research: *User Research, Usability Testing, Interviews, Heuristic Evaluation, Information Architecture, Personas, Journey Mapping, Data Analysis*

Design: *Wireframing, Prototyping, Interaction Design, Design Systems, Accessibility (WCAG), Mobile & Web Design*

Soft skills: *Creativity, Empathy, Prioritization, Attention to detail, Problem solving, Collaboration, Open-mindedness, Provide and Solicit feedback, Agile*

Software: Figma, FigJam, React, *Rive, Procreate, After Effects, Premiere Rush, Miro, Jira*

Languages: *French (Native), English (C1 Reading, B2 Listening)*

WORK EXPERIENCE

UX Designer Assistant, **Ubisoft** **Paris/Remote | Feb 2026 - Jul 2026**

- Lead research-driven UX design for internal/creative tools while collaborating with cross-functional development teams.
- Maintain industry-standard documentation and design trends to ensure product consistency across the studio.

UX Designer at a startup, **Purely** **Remote | Apr 2025 - Jan 2026**

- Directed the creative vision by applying User-Centered Design (UCD) and competitive analysis to drive product strategy.
- Analyzed 300+ survey responses to define data-driven personas and prioritize the product development roadmap.
- Managed end-to-end usability testing cycles to continuously optimize user retention and experience.
- Architected a scalable mobile design system in Figma to accelerate development speed and ensure brand cohesion.

UX Designer Internship, **Airbus & IMS** **Bordeaux | May 2025 - Jul 2025**

- Redesigned the Virtual Maintenance Trainer (VMT) interface to resolve 3D navigation complexity and usability barriers.
- Conducted 7 semi-structured interviews and field observations to align the tool with real classroom workflows.
- Applied Colombo & Pasch heuristics to transform high-density data into intuitive, low-cognitive-load interfaces.
- Facilitated stakeholder alignment between Airbus and IMS through transparent communication of research findings.

UX Instructor Internship, **ENSC** **Bordeaux | June 2024**

- Developed and led UX/UI workshops for high schoolers, teaching Figma basics and inclusive design principles.
- Simplified complex cognitive engineering concepts into engaging, beginner-friendly pedagogical lessons.

EDUCATION

Master's Degree in Cognitive and Computer Sciences, **École Nationale Supérieure de Cognitique** **Bordeaux | 2023 – 2026**

French Engineering school focused on UX/UI design, Computer Science, AI and human-centered design.

Focus: User-Centered Design, User Research, Design Thinking, Accessibility, Human-System Interfaces, Innovation Methods, Human Factors, AI Core & NLP

Preparatory Classes in Maths and Physics, **Cycle Préparatoire de Bordeaux (CPBx)** **Bordeaux | 2021 - 2023**

Two-year intensive program preparing for entry into French engineering schools.

ACADEMIC & PERSONAL PROJECTS

Lead UX Designer - Biometric Diagnostic Tool, **ENSC (Sprint)** **Jan 2026**

- Designed a dashboard visualizing complex cognitive states (Stress, Flow) using Russell's Circumplex Model.
- Iterated on high-fidelity prototypes following Attrakdiff testing to reduce user cognitive load.

UX Designer - Smart desk application, **ENSC** **Jan 2025 - Feb 2025**

- Directed the UI/UX for "Deskfriend," a smart-desk controller focusing on posture analysis and focus modes.
- Translated complex user requirements into a high-fidelity interactive prototype in Figma, ensuring the final design addressed core user needs.
- Conducted guerrilla testing at a local supermarket to validate an autonomous cart concept with 9 participants.

UX Designer - Web platform for supporting youth, **ENSC** **Sep 2024 – Dec 2024**

- Led foundational user research through semi-structured interviews with experts to inform the core platform features and user personas.
- Established a cohesive visual identity and style guide to communicate project values and ensure consistency for future development.
- Created responsive wireframes and high-fidelity mockups in Figma to ensure usability and accessibility for teenage users.

Brand Designer - Logos Creation, **Le BINKS - Bordeaux INP** **Nov 2024 – Feb 2025**

- Created custom logos with Procreate and Figma for the eight schools participating in the Krystal university sports tournament.
